## DX news

### **TX7N Marquesas Islands –update January 15**

The conditions on-site are particularly demanding and require all our energy and adaptability:

- Reduced Team: The team now has 10 active operators. Two operators are absent, and two others are facing health issues. Despite these challenges, morale remains high.
- EME (Earth-Moon-Earth): Three operators are engaged for 5 hours daily on this demanding mode, which further complicates our organization.

Propagation: Average and highly unstable, with weak and fluctuating signals. We are maximizing contacts using our 4 active stations, depending on band openings.

- Network: Frequent Internet outages make the livestream impossible. We have temporarily decided to stop it, but we are updating the logs twice daily to ensure transparency.

### **VU4X Andaman Islands –update**

Pilot stations have been chosen. They are DX-World's very own Weekly Bulletin writer, Bjorn ON9CFG (EU), together with Pete W2IRT (NA) and Champ E21EIC (AS).

### **TX7G French Polynesia –update**

Haru recently tested a 6m antenna for his upcoming TX7XG activity in April. He's also added a bandplan. <https://www.dx-world.net/tx7xg-french-polynesia/>

### **TX9A Austral Islands DXpedition –update**

The TX9A Team will be using 403A HP Bandpass Filters during their stay on Tubuai Island. The plan is to use filters for WARC bands as well, which will enable us to work smooth and simultaneously on two stations at the same time. We would like to thank to Ranko, 403A and his Team for their help. Such support means a lot to us and our team has no costs for using the High Power Bandpass Filters.

### **Archived: DX World Weekly Bulletin**

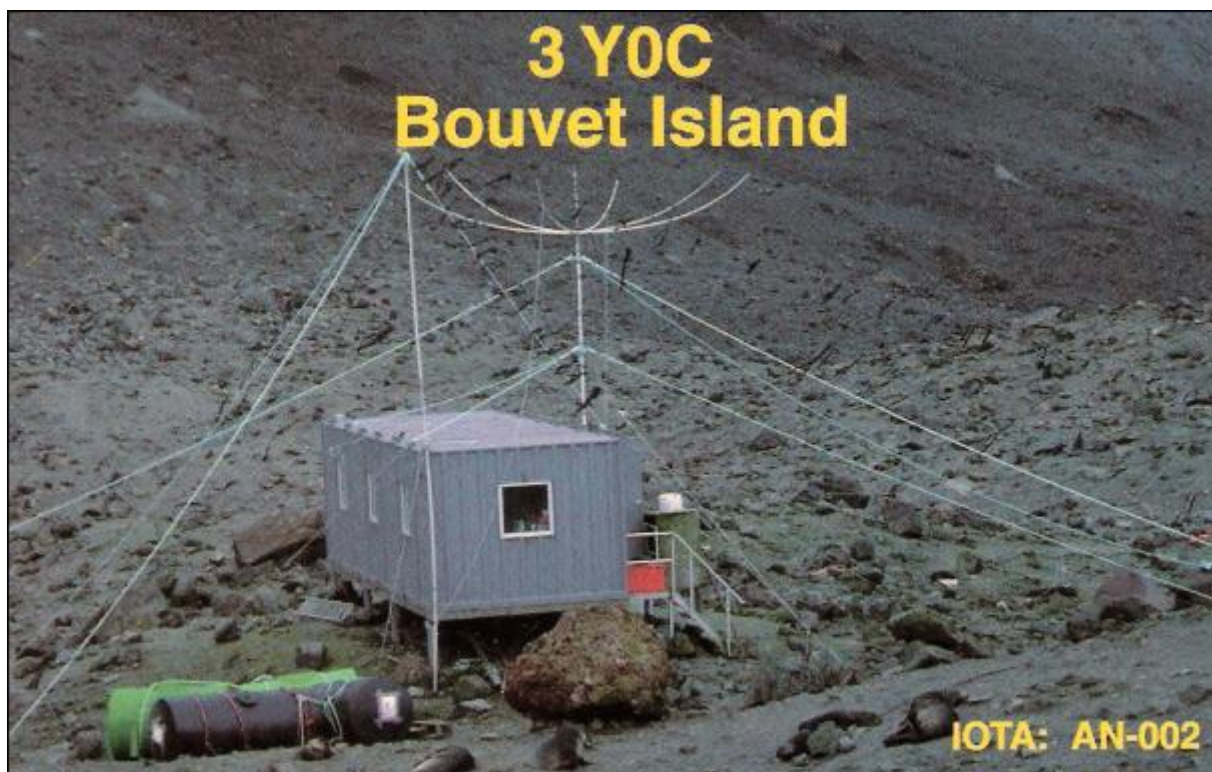

Now showing on the Digital Library of Amateur Radio & Communications (DLARC) is an archive of the FREE DX World Weekly Bulletins – our very own newsletter about amateur radio DXing which has been consistently written by Björn ON9CFG since 2013, and published here on DX-World every Thursday.

### **Remembering 3Y0C**

23 years ago Chuck Brady N4BQW (SK) appeared on the airwaves from Bouvet Island. It's easier to direct you to this link where the full 3 month expedition is documented. As a bonus, we have sourced two short audio recordings of Chuck when QRV from this forever rare DXCC entity. Also, maybe you made his log?
